

Turnitin-Checking Malpractices and Plagiarism

BLDEA's V. P. Dr. P. G. Halakatti College of Engineering & Technology, Bijapur is committed to publishing original scholarly materials of the highest quality that provide comprehensive insight into all aspects of engineering science. We believe that ethical publication practices are critical to the successful development of knowledge. Therefore, it is our policy to maintain high ethical standards in all publications. These standards pertain to all books, journals, chapters, and articles of our faculty.

We understand plagiarism as the intentional or unintentional use of another individual's, or collection of individuals', ideas, theories, models, equations, conclusions, research (intellectual property), without proper attribution to the original source. As plagiarism is considered to be one of the most serious breaches in publication ethics, all publications of our institution shall be investigated with the utmost diligence using TURN IT IN software in our institute. Furthermore, all submitted manuscripts will be reviewed with the goal of determining if plagiarism has taken place and, if so, the authors(s) will be notified promptly.
