About the IEI

The Institution of Engineers (India) [IEI] is a statutory body to promote and advance the engineering and technology, established in 1920 and incorporated by Royal Charter in 1935. It is the largest multi-disciplinary professional body of engineers encompassing 15 engineering disciplines with a membership of more than 820 thousand, and serving the nation for more than 9 decades.

About the FDP

The workshop provides hands on training regarding the design, troubleshooting, modeling and evaluation of the computer network using network simulator. The participants would have rich experience of creating real test bed environment of computer network and troubleshooting tools such as network addressing, ARP, ICMP, Routing, TCP and UDP. The participants get an opportunity to build some simple networking models using C/C++ and NS-2 Simulator that will help them to evaluate their design approach and expected network performance.

The prime agenda of this programme is to give an overview of NS-2 software for network simulation with hands on lab sessions with a wide variety of experiments.
