विश्वविद्यालय अनुदान आयोग का स्वायत्त संस्थान

About BLDE Association :

In the year 1942, a religious leader and a visionary Shri Shri Sangana Basaveshwar Maha Shivayogigalu of Banthanal, laid a firm foundation to BLDEA by way of establishing various educational institutes. He played a major role in developing the Association and established many Primary, Higher Secondary schools and colleges for Higher education. In the 1960s another great visionary, Dr. B.M. Patil foresaw the potential and need of scaling up educational opportunities of the people of this region. With his vision and perseverance, he gave a new dimension to the functioning of the institutions under BLDEA and established new institutions to impart professional education. The Association established an Engineering College, Pharmacy College, Nursing College and a Medical College, along with a 1,000 bed teaching hospital, a first of its kind in the country. A new era began in the 1990's, when the son of Dr. B.M. Patil, Dr. M. B. Patil, a young and dynamic leader, took over the reins of BLDEA. His primary objective was providing quality education with modern concepts of liberalization, globalization and tremendous expansion in various new courses. He conceived the need for establishing a University and strived to establish the BLDE University, which came into existence on 29th February, 2008.

The BLDEA is propagating education in Bijapur and Bagalkot districts, which are recognized as socially, economically and educationally backward areas by then British Government and by present UGC, State Government and Central Government. BLDEA sponsors and runs 68 Institutions in both rural and urban areas of Bijapur (now Vijayapura) and Bagalkot Districts. It includes Primary schools, High Schools, Pre-University Colleges, Degree colleges of Arts, Science, Commerce, Law, Management, Education Science, Fine arts, Pharmacy, Nursing, Nursery, Sericulture, Engineering & Polytechnic, Medical Sciences with Post Graduate courses; and sponsors the BLDE University in detail.

About the college :

BLDEA's Vachana Pitamaha Dr.P. G. Halakatti College of Engineering and Technology, Vijayapur is a premier technical institute located in Northern part of Karnataka on a scenic stretch of land spread over 15 acres in Vijayapur, started in the year 1980 as a private Institute. The Institute is the result of the BLDEA's recognition of the need for quality technical education in this part of the state. To achieve this objective, it has striven hard to create an environment and infrastructure that enables it to produce qualified, practical engineers who are ready to face the challenges in the industries. The college is affiliated to Visvesvaraya Technological University (VTU), Belagavi and recognized by AICTE, New Delhi.

The institute is offering eight UG programs, five PG programs in Engineering along with MCA, MBA programs, also offers Ph.D. and M.Sc. Engg (by research) through five Research Centers recognized by VTU, Belagavi. Five UG Programmes have been accredited by National Board of Accreditation (NBA) during the year 2015 and reaccredited during 2018. The institute is ISO 9001:2015 certified institution. Staff strength is reinforced with 25 Doctorates, 195 Post Graduates. The proactive core research activities by faculty have fetched the grant exceeding Rs.1.6 crore from VTU/VGST/AICTE/IEI/ISTE during last five years. Best possible practical exposure is provided to students through centers of excellence established in the institute to make them readily employable.

About the Workshop :

In recent times, decline in number of aspirants to take up engineering education is a matter of concern to all the stake holders. After critical examination of all the possible reasons; one big factor or reason for this is "Quality". Yes, quality in engineering education is deteriorating day by day; graduates are not up to the expectations of employers. Despite of the institutions getting accreditation status from accrediting agencies, the quality of engineering graduates has not improved much. Hence, this workshop is being organized to address the quality issues in higher education.

Workshop Themes

- Quality Assurance in Institutions of Higher Learning
- Innovative Teaching Methods
- Outcome Based Education
- Reforms in Assessment and Evaluation
- Trends in Quality Education

Who can attend ?

Principals, IQAC Coordinators, Institute NAAC Coordinators, Faculty members of different departments
